All yields adjusted to 12.5% moisture. The results presented here are from unreplicated demonstration plots. For replicated research plot results farmers will want to study the 2010 K-State Wheat Performance Test Results available on the web at <http://www.agronomy.ksu.edu/extension/DesktopDefault.aspx?tabid=91> or at the Extension office.

Special Thanks to: Vaughn Isaacson and Sons, Larry Breer and Tom & Pat Ryan for planting and harvesting the plots; Phillips Seed Farms, Inc., Westbred and Agripro for donating plot seed; Karber Farms and Fontanelle Seed for the use of their weigh wagon.
