

Saline Co. Women In Ag

Landscaping with Native Plants

Native plants are growing in interest for reasons that may surprise you. In this workshop we will explore a new side of Kansas native plants and help you get prepared to make the most of using natives in your own home landscape!

Presented by Jason Graves, KSU Extension

Following Jason and a cheesecake break, we will have an interactive planting session. You have an opportunity to learn about and plant your own succulent.

Please bring a small coffee cup size container for your succulent.

RSVP's are necessary to ensure there are a sufficient number of plants.

Tuesday, April 30

American Ag Credit

925 W. Magnolia, Salina, KS

Registration 6:00 p.m.

Meeting begins at 6:30 p.m.

Pre-registration requested:
